

Quality workmanship for your production facility.

Exploit the potential of your production facility. Whether we are dealing with a building, building services or the surrounding grounds, we assume responsibility for maintenance, cleaning and internal processes. In doing so we always think and act in your best interest and resolve sophisticated tasks quickly, flexibly and competently. To allow you to concentrate fully on your core business, we ensure an optimum production environment.

Everything from a single source. And with just one goal in mind: Your added value

- Management and logistics **for smooth internal processes**
- Customized modernization concepts **to maintain the value of your production facilities**
- Fast response times **for optimum plant availability**
- Use of modern management tools **for outstanding quality**
- Detailed documentation **for demonstrably good performance**
- Holistic approach to your production facility **to achieve maximum synergies**

Technical Facility Management

Create an optimum working environment. We take care of the operation and maintenance, inspection and repairs of your building services facilities or develop customized concepts for upgrading them. We rectify faults in a very short time and ensure the supply of hot and cold water, compressed air and power to your production halls.

Scope of services

- Facilities maintenance (maintenance, inspection, repair)
- Technical facilities management
- Building automation
- Warranty management
- Energy management
- Janitorial services
- Projects and modifications
- Water and waste water treatment

Infrastructural Facility Management

Safeguard the value and attractiveness of your building. We undertake the proper cleaning and care of your entire production infrastructure. We develop and realize individual schedules and work according to stringent quality criteria. We use digital tools to document our services in detail and regularly check our performance against the agreed goals.

Scope of services

- Janitorial cleaning
- Window and exterior cleaning
- Landscaping
- Street cleaning and snow removal
- Furniture move
- Special project cleaning
- Deep Cleaning
- Internal waste stream management

Internal Logistics

Perfect your internal processes. Whether material scheduling, transport or storage, we carry out all logistics tasks inside and outside your production building in a professional, competent and absolutely reliable manner. We organize and optimize internal processes and create the best conditions for your production.

Scope of services

- Empties handling
- Logistics for non-serial parts
- Internal transport
- Kitting, sorting and rework
- Value-added assembly and line-side delivery
- Sequencing
- Packaging
- Warehouse management
- Spare parts management
