Leadec receives “Preferred Supplier” status from the Bosch Group

Stuttgart, 2019-02-28 – Leadec has again received the status of “Preferred Supplier of the Bosch Group” in the field of facility management for 2018. Every year, the automotive supplier and technology group Bosch selects suppliers with whom it prefers to work together using defined criteria.

For the sixth time, Leadec was honored for their on-time delivery, quality, competitiveness and innovative power. In the material cluster Facility Management and the category Cleaning, Leadec fulfills the requirements of an outstandingly competent and capable supplier and is therefore considered an important partner for ensuring the Bosch Group’s competitiveness.

Leadec, leading provider of technical services for the automotive and manufacturing industries, places great importance on building up long-term customer relationships. The company has worked with the Bosch Group for more than 20 years and can look back on a successful cooperation. The range of services is broad: From engineering to janitorial cleaning, we support our customer at sites in Europe, South America and Asia with a comprehensive range of services.

According to Bosch, being awarded the Preferred Supplier status is not only recognition of the relationship so far but also an incentive to further intensify the cooperation in the future. Leadec also aims at further expanding the customer-supplier relationship.

About Leadec

Leadec is the leading provider of technical services for the automotive and manufacturing industries. The company, which is headquartered in Stuttgart, employs almost 20,000 people worldwide. In 2017 Leadec earned sales of around EUR 900 million. For more than 50 years, Leadec has been supporting its customers along the entire production supply chain. The service provider is based at more than 200 locations, often directly at the customers’ plants and facilities.

Leadec’s global services comprise: Engineer (consulting and engineering), Install (electrical installation, automation, disassembly and reassembly),

Maintain (production equipment maintenance and technical cleaning), Support (facility management and internal logistics) as well as other local services. The services are provided either in projects or permanently on site at the customer's premises.
