

**Your partner across
every industry.**
We love your factory.

leadec
Industrial Services

Who improves your efficiency? We do at Leadec.

In a unique way, Leadec combine the expertise, networking capacity and performance of a global player with the personal support of a regional partner. With a workforce of over 20,000 worldwide, we are represented at more than 250 locations across four continents. This allows us to be close to our customers wherever they are.

UK presence:

- 2200 employees
- 140 services
- 56 locations
- 30+ clients

We consider every production scenario from the perspective of the plant operator and contribute industry and process expertise acquired through more than 50 years of experience. To ensure that our customers have a genuine competitive edge, we are proactive and flexible, resolve sophisticated tasks with great technical expertise and consistently think outside the box. We are constantly looking to the future, so we do not just optimise existing technologies, but also develop our own technical, organisational, analog and digital tools.

To allow us to become even better, we invest constantly in our technology, our processes and our personnel. At Leadec we know that challenging goals can only be achieved by focusing on the future and maintaining a high level of motivation. Our experience and expertise is available around the clock to our teams worldwide.

Our heart beats for your factory

The manufacturing industry.

By following the expansion of our key customers over the years, Leadec continuously developed its footprint as well. Today we offer customised service solutions as a partner on a global level.

For several decades Leadec has transferred knowledge, skills and expertise and performed customised services in our customers' plants and factories. With our innovative solutions and great passion we keep the heart of your production efficient and strong. We offer our customers the same service standards in all sectors of the manufacturing industry worldwide.

We make sure your plant and equipment run smoothly, from assembly to installation to automation.

Sectors we operate in:

- Automotive & Manufacturing
- Assembly Services
- Aerospace
- Electronics & White goods
- Food & Beverage
- Chemical & Pharma
- Wood, Furniture & Fabricated metal products

Service DNA and capability is transferable between industries

Benefits and capabilities.

The manufacturing industry.

Safety and quality

With strict environmental requirements and rapid technological development, combined with a long model life and **high safety requirements**, the **aerospace industry** faces demanding challenges every day and is one of the most advanced industries in the world. To cope with these challenges reliably and successfully, you need a strong industrial service provider. The services for the aerospace industry provided by Leadec ensure production runs flawlessly and as a result strengthens the core sustainability of our clients.

Service agility

Shorter production cycles combined with an **increasing product variety**, these are the requirements our customers in the **food and beverage industry** face every day. The top priorities in this industry: uncompromising safety and hygiene, and reliable traceability. Leadec's industrial services help increase your quality and productivity. We make sure that your production line runs smoothly and trouble free, allowing you to focus on your end customers' ever-growing expectations. This, in turn, increases your **competitiveness** and **flexibility**.

Partnerships (co-location)

Growing demands on quality and strict inspections by authorities, these are the conditions in which our customers in the **metal fabrication industry** have to comply. Leadec consistently works in partnership with you to continually progress new ideas and initiatives across the entire range of metal fabrication production. Through **co-location**, we create an ideal working environment and make your production facilities flexible and effective, so that you can always focus on your core business.

Cost focus

In today's world, the **automotive industry** is confronted with the task of developing increasingly lighter vehicles that consume less fuel and emit less CO2. Let Leadec's service capabilities work for you. This means that you not only outsource work responsibility but this allows you to fully focus on your end product, **reducing cost** as a result.

Benefits and capabilities.

The manufacturing industry.

Innovation

Trend-setting developments regarding medicines, fuels and biotechnologies reflect the **chemical industry's** dynamics. As an industrial service provider we see the whole picture and can offer our customers the best solutions, competent advice and greater efficiency thanks to our reliable range of services. Outsourcing industrial services to Leadec frees up resources for the actual purpose of your business.

Process Efficiency

The **wheel and tyre** assemblers' success depends on high-quality and durable materials as well as the end customer's safe and ideal driving experience. To be able to meet the high quality standard, many premium manufacturers already outsource production-related industrial services to Leadec today. Production facilities that function reliably and flawlessly are the key to success in an industry in which **just-in-time** and **just-in-sequence** delivery are crucial.

Direct Resourcing

In the **wood and furniture industry**, critical success factors include reliability and sustainability. In this sector, too, our specialised employees ensure stable and sustainable working conditions and the retention of your production facilities' value. Leave the responsibility for these activities with our **directly employed specialists** to ensure the quality of your work and to reduce your company's risk.

Digitisation

The **appliance industry** evolves around developing new products aimed at making the end consumer's life more comfortable. These markets face the challenges of meeting the rising demands on **innovation** and quick succession in a **digitised society**. To grow successfully in these industries, our customers reduce their own risk by handing over responsibility for industrial services at the production plant. Let Leadec support you with production related services.

Leadec's end to end business process, **COSMOS**, is a holistic IT solution for sales and service execution with integrated process and information flows.

What improves your efficiency? Our services.

Engineer

- Engineering
- Consulting

Overview of services

Development and production projects are our passion, especially when we carry out projects ourselves in manufacturing engineering.

Install

- Electrical Installation
- Automation
- Dis- and Reassembly

Overview of services

Whether we are supporting you with a new acquisition, relocation or upgrade, we ensure the smooth operation of your production facilities and machines. We ensure that your manufacturing process is reliable, efficient and cost effective so that you can concentrate fully on your business.

Maintain

- Production Equipment Maintenance
- Technical Cleaning

Overview of services

We make sure that your production runs perfectly, because we clean and maintain, repair and optimise all components relating to your entire production process. We plan and realise customised maintenance concepts for minimal downtimes today and in the future.

Support

- Technical Facility Management
- Infrastructural Facility Management
- Internal Logistics

Overview of services

Whether we are dealing with a building, building services facilities or surrounding grounds, we take responsibility for servicing, cleaning and internal processes. In doing so we always think and act in your best interest and resolve sophisticated tasks quickly, flexibly and competently. We ensure an optimum production environment while you concentrate on your core business.

USPs and key deliverables.

The manufacturing industry.

USPs

Key deliverables

What makes Leadec stand out?

- 90% Self delivery
- Dedicated Operational Excellence team
- Deep understanding on how factories operate
- Thorough understanding of how to operate safely in production environments
- Contract renewal rate of 90%

Why work with us?

- Specialist in designing service solutions aligned with the critical requirements in production environments
- Specialist in understanding waste streams
- Energy Efficiency understanding
- Staff turnover is 50% less than the industry average

Systems

We have invested £25 million into systems and digitisation

People

We invest over 7% of our profits into the training and development of our people

Partnerships

More than 85% of our customers have been with us 5+ years
