

## Media Release

### **Leadec Brazil wins another food & beverage customer**

*Stuttgart, Germany/São Paulo, Brazil, 02/16/21 – The food producer Liotécnica Tecnologia em Alimentos has awarded Leadec a contract to provide services in its industrial plants, located in Embu das Artes in Brazil, for the first time. The Leadec employees assume the operational services in the industrial utilities and building maintenance processes. For Leadec, this means another contract award in the food & beverage industry.*

“We have been a reliable partner for our customers in the food & beverage industry for about 30 years. With our experience in the maintenance of a wide variety of facilities and our expertise in technical facility management, we offer all services for this demanding industry from a single source,” says Markus Glaser-Gallion, CEO of Leadec.

Leadec will be responsible for HVAC (heating, ventilation, air conditioning) and equipment maintenance, the operation of industrial utility facilities as well as welding and building maintenance work at the Embu das Artes manufacturing plants. The company is thus further expanding its global customer base in the food production sector. For more than ten years, Leadec has been providing maintenance and support services for one of the leading food packaging manufacturers in its plants in Monte Mor and Ponta Grossa, Brazil.

“Leadec works in 300 factories around the world and ensures that production runs smoothly and is fit for the future. As a service specialist, we cover the entire life cycle in a factory and meet our customers’ individual requirements,” adds André Sales, Commercial Director Leadec Brazil.

Liotécnica specializes in the production of industrial ingredients, using different technologies for drying raw materials, extracting cereal malt, developing formulas, producing and packaging high-quality products in the form of co-packer with well-known product brands inside and outside Brazil. It also produces its own brands for a wide range of products for the retail, food service and vending machine markets. The Brazilian company has been a player in the ingredients sector for more than 50 years.

## About Leadec

Leadec is the leading global service specialist for factories across their entire life cycle and related infrastructure. The company, which is headquartered in Stuttgart, employs about 20,000 people worldwide. In 2019 Leadec earned sales of around EUR 900 million. For almost 60 years, Leadec has been supporting its customers along the entire production supply chain. The service provider is based at more than 300 sites, often directly at the customers' plants and facilities.

Leadec's global services comprise: Engineer (Production Planning & Optimization, Automation and Production IT), Install (Electrical Installation, Mechanical Installation and Relocation), Maintain (Production Equipment Maintenance and Technical Cleaning), Support (Technical Facility Management, Infrastructural Facility Management and Logistics) as well as other local services. The Leadec.os digital business platform is used to record all processes end-to-end and integrate further digital services.
