## Support for projects worldwide

### 60 years of Leadec: 6060 euros for six different projects

**Stuttgart, 07/14/22 – Leadec is celebrating its 60th anniversary in 2022 and is donating 6060 euros each to six charitable initiatives. They were suggested by employees of the globally active service provider for the factory. In a 60-day challenge, they walked, ran or biked to raise donations for projects close to their hearts.**

“This year, Leadec turns 60. For us, sustainability also means giving something back to society. Leadec is therefore supporting six charitable projects and organizations that are committed to a good cause with 6060 euros each. It was particularly important for us to include our teams worldwide in this,” says Markus Glaser-Gallion, CEO of Leadec.

#### **Six heartfelt projects**

In February 2022, the 20,000 Leadec employees worldwide were called upon to suggest a project that was particularly close to their hearts. A total of 50 suggestions were submitted in the categories of education, environment, and health and safety, from which six initiatives were ultimately selected.

#### **Kilometers for a good cause**

From May 2022, things got sporty, as the 60-day challenge was launched. All employees were called upon to walk, run or bike and thus raise donations for the projects. Leadec donates 1 euro for every kilometer covered on foot or for every two kilometers cycled. In total, over 38,000 kilometers were covered in the 60 days, which is longer than the distance from Germany to Australia and back again.

Employees around the world did their utmost and logged their kilometers every day in the employee app. In total, more than 2,500 contributions were received. After just four weeks, the first project reached the sum of 6060 euros, followed just a few days later by the second project.

“Our employees’ commitment has exceeded all expectations. Whether it was 2 km from a walk during the lunch break, bike rides of 100 km or joint hikes that also involved collecting trash – we were impressed by this team spirit. That’s why we also decided to donate the maximum achievable amount of 6060 euros to all projects,” explains CEO Markus Glaser-Gallion.

## About Leadec

Leadec is the leading global service specialist for factories across their entire life cycle and related infrastructure. The company, which is headquartered in Stuttgart, employs about 20,000 people worldwide. In 2021 Leadec earned sales of around EUR 940 million. For 60 years, Leadec has been supporting its customers along the entire production supply chain. The service provider is based at more than 300 sites, often directly at the customers' plants and facilities.

Leadec's global services comprise: Engineer (Production Planning & Optimization, Automation and Production IT), Install (Electrical Installation, Mechanical Installation and Relocation), Maintain (Production Equipment Maintenance and Technical Cleaning), Support (Technical Facility Management, Infrastructural Facility Management and Logistics) as well as other local services. The Leadec.os digital business platform is used to record all processes end-to-end and integrate further digital services.
